

Congratulations on your wedding! You are on your way to a beautiful wedding hairstyle. I hope you will find my information helpful and easy to follow whether you try to do the hairstyle yourself or you bring it to your stylist.

No one wants a **bad hair day** on their wedding! Communication is the key to success. My suggestion for you is to find a stylist who has experience “dressing” hair. Let the receptionist know this is your wedding and that you wish to schedule a trial run. This can be done as soon as possible, but no later than six weeks before your wedding.

Helpful tips for a great Trial Run:

- ◆ Bring a camera with you so you can take pictures of your hair.
- ◆ Bring your headpiece so the stylist can work with it.
- ◆ If possible schedule your trial run on the same day you have a gown fitting.
- ◆ Try to bring a magazine picture of your dress or a photo with you to the salon; any and all information is helpful to the stylist.

To help keep wedding day jitters under control a good attitude is key. Don't expect everyone to be happy with their hair appointments. It was hard enough choosing of the bridesmaid dresses. The flower girl may be tired and cranky. Someone may forget their picture. Another wants their hair down and you would prefer it up. Don't let these minor issues get you down.

Have **everyone** pick out a style from **weddinghair.com** for a GOOD hair day!

Hopefully the salon you use will have a copy of my book **The Business of Bridal Beauty**, an indispensable tool for understanding the wedding business and its relation to the beauty industry.

*The beauty of love & commitment is the
beauty that counts.
God bless your new life.*

you may have.

When working with the natural curl do not use any tools. Brushing will frizz the hair. It is a good idea to have a light pomade on your hands as you work to help tame the frizz. At the trial run I instruct the bride to wash and diffuse her hair at home the day of the wedding, or you can do it in the salon. Make sure the proper products are used.

- A. Draw the top into a loose ponytail.
- B. Add a second ponytail [#2] behind the first one [#1]. Pay attention to the head shape and where that hair is coming from.
- C. Twist #1 ponytail and push it forward until the desired affect is achieved and pin.
- D. Twist #2 ponytail and push it forward and pin.
- E. #2 ponytail is hidden under #1's ends. Make two side sections taking the hair from the nape area just behind the ears to the temple. Place a loose ponytail at the ends of the hair that is left down.
- F. Loop under the bottom section and place it in a ponytail. Let it be loose with the ends poking out.
- G. Now take both side sections and draw them up and actually tie the hair into a knot! It will come out easily later. Pin the first half of the knot to the head so it won't slip. Then finish making the knot.
- H. Tuck the ends of the knot around and secure with hairpins. Cover the elastic with a piece of hair by looping it around and pinning.
- I. If you want to you can fan out the ponytail and pin it at the x. The dots indicate where flowers can be placed.

Tips: The mannequin model was not layered, the live model had long layers and shorter hair. Before you bring up the side sections make sure to leave out any tendrils that you want.

Headpieces: A small wreath or bun wrap will work well. Also loose fresh or silk flowers would complement the curly texture. A backpiece or tiara would also work.

Gowns: This is a traditional style with a chignon effect, most any gown will do. If the gown has back detail like flowers at the bustle this design would complement it nicely. This style will also work with chic modern lines.

Hair; the 'do dilemma

Whether you book with your stylist eight months ahead or assume there will be time to do your own hair with relatives staying over,.....etc. You need a plan for success!

Here are some suggestions:

Doing your own hair? Practice, practice, practice.

1. Time your practice session and make a list of all of the tools and products you will need.
2. Put everything in a basket and hide it away to bring out fresh and ready for your special day.
3. If there are relatives stay over, schedule times for showers
4. Make sure there is a mirror, counter, or table to work from.
5. Check for nearby outlets.
6. Put on your under things; cover up with a button down shirt or robe.

Is a stylist traveling to you?

1. Give exact, adequate directions and phone numbers.
2. Make sure you have a place set up for the stylist to work, like a well-lit dining room or kitchen table.
3. Don't assume the stylist can do extra people last minute. Make sure everyone who is having their hair done is mentioned ahead of time and arrives promptly.
4. Be ready yourself and allow extra time for interruptions.

Are you going to a salon?

1. Schedule your wedding day hair appointment at least eight weeks ahead.
2. Have a practice session at least a month ahead and bring a picture of your dress and your headpiece with you to the salon.
3. Record your travel time from the salon to where you are getting dressed.
4. Add on extra time for getting dressed and make-up if the salon is not applying it.
5. Bring a Polaroid camera to your hair appointment and take pictures of the front, side, and back.
6. Ask for more than one stylist to help with the wedding party. Three stylists for a party of six is the best bet for staying on schedule.
7. Schedule all nail appointments for the day before, this also saves time.
8. Don't expect to get your favorite stylist to do your wedding hair if you desire an intricate Updo. This is a specialty service and best left for the resident expert.
