

Congratulations on your wedding! You are on your way to a beautiful wedding hairstyle. I hope you will find my information helpful and easy to follow whether you try to do the hairstyle yourself or you bring it to your stylist.

No one wants a **bad hair day** on their wedding! Communication is the key to success. My suggestion for you is to find a stylist who has experience “dressing” hair. Let the receptionist know this is your wedding and that you wish to schedule a trial run. This can be done as soon as possible, but no later than six weeks before your wedding.

Helpful tips for a great Trial Run:

- ◆ Bring a camera with you so you can take pictures of your hair.
- ◆ Bring your headpiece so the stylist can work with it.
- ◆ If possible schedule your trial run on the same day you have a gown fitting.
- ◆ Try to bring a magazine picture of your dress or a photo with you to the salon; any and all information is helpful to the stylist.

To help keep wedding day jitters under control a good attitude is key. Don't expect everyone to be happy with their hair appointments. It was hard enough choosing of the bridesmaid dresses. The flower girl may be tired and cranky. Someone may forget their picture. Another wants their hair down and you would prefer it up. Don't let these minor issues get you down.

Have **everyone** pick out a style from **weddinghair.com** for a GOOD hair day!

Hopefully the salon you use will have a copy of my book **The Business of Bridal Beauty**, an indispensable tool for understanding the wedding business and its relation to the beauty industry.

beauty that counts.
God bless your new life.*

Hair; the 'do dilemma

Whether you book with your stylist eight months ahead or assume there will be time to do your own hair with relatives staying over,.....etc. You need a plan for success!

Here are some suggestions:

Doing your own hair? Practice, practice, practice.

1. Time your practice session and make a list of all of the tools and products you will need.
2. Put everything in a basket and hide it away to bring out fresh and ready for your special day.
3. If there are relatives stay over, schedule times for showers
4. Make sure there is a mirror, counter, or table to work from.
5. Check for nearby outlets.
6. Put on your under things; cover up with a button down shirt or robe.

Is a stylist traveling to you?

1. Give exact, adequate directions and phone numbers.
2. Make sure you have a place set up for the stylist to work, like a well-lit dining room or kitchen table.
3. Don't assume the stylist can do extra people last minute. Make sure everyone who is having their hair done is mentioned ahead of time and arrives promptly.
4. Be ready yourself and allow extra time for interruptions.

Are you going to a salon?

1. Schedule your wedding day hair appointment at least eight weeks ahead.
2. Have a practice session at least a month ahead and bring a picture of your dress and your headpiece with you to the salon.
3. Record your travel time from the salon to where you are getting dressed.
4. Add on extra time for getting dressed and make-up if the salon is not applying it.
5. Bring a Polaroid camera to your hair appointment and take pictures of the front, side, and back.
6. Ask for more than one stylist to help with the wedding party. Three stylists for a party of six is the best bet for staying on schedule.
7. Schedule all nail appointments for the day before, this also saves time.
8. Don't expect to get your favorite stylist to do your wedding hair if you desire an intricate Updo. This is a specialty service and best left for the resident expert.

Read all of the steps and look at all the of pictures once or twice before beginning.

A. Separate the front from the back and make a part. Pin sections for control. Begin to curl the hair with a hot curling iron. Make sure the curls are firm and neat. A spray gel can be used before curling. Don't be alarmed if the hair steams and cackles this is because of the spray gel. The iron should be very hot. Roll with tension.

B. A side view. Notice the angle of the curls.

C. Notice the drag of the curls that are near the ear. If this area is rolled with over direction, (too full) it will be poufy on the side and not be able to lay flat behind the ear as it should.

D. Now use a styling gel or wax for the front section. Comb it smooth so it lays flat and tuck it behind the ear. Use bobbypins if necessary to keep it behind the ear. With the product remaining on your hands, finger comb the curls and separate them into shape. **Do not brush out the curls.**

If you do it will look like an old lady set and loose its modern edge.

Tips: Experiment with product. If the brides hair is curly use a flat iron for the front and a heavy pomade for control, but still use a hot iron for controlling the curls.

Headpieces: A crown of silk flowers as shown, tiara, a full headband or half headband, wreath or a simple veil at top will complement this hair design.

Gowns: Clean modern body conscious gowns will complement this clean head hugging hairstyle. A short full veil attached to this hair design will balance a gown with a full skirt.
