

Congratulations on your wedding! You are on your way to a beautiful wedding hairstyle. I hope you will find my information helpful and easy to follow whether you try to do the hairstyle yourself or you bring it to your stylist.

No one wants a **bad hair day** on their wedding! Communication is the key to success. My suggestion for you is to find a stylist who has experience “dressing” hair. Let the receptionist know this is your wedding and that you wish to schedule a trial run. This can be done as soon as possible, but no later than six weeks before your wedding.

Helpful tips for a great Trial Run:

- ◆ Bring a camera with you so you can take pictures of your hair.
- ◆ Bring your headpiece so the stylist can work with it.
- ◆ If possible schedule your trial run on the same day you have a gown fitting.
- ◆ Try to bring a magazine picture of your dress or a photo with you to the salon; any and all information is helpful to the stylist.

To help keep wedding day jitters under control a good attitude is key. Don't expect everyone to be happy with their hair appointments. It was hard enough choosing of the bridesmaid dresses. The flower girl may be tired and cranky. Someone may forget their picture. Another wants their hair down and you would prefer it up. Don't let these minor issues get you down.

Have **everyone** pick out a style from **weddinghair.com** for a GOOD hair day!

Hopefully the salon you use will have a copy of my book **The Business of Bridal Beauty**, an indispensable tool for understanding the wedding business and its relation to the beauty industry.

*The beauty of love & commitment is the
beauty that counts.
God bless your new life.*

I am only an e-mail away, please don't hesitate to contact me with any questions you may have.

A. Following the picture below, take a front section of hair and roll it back (yellow arrow) using a hot roller or large curling iron. If you want a side part you can do that later. If you want tendrils take them out now. Take a parting on the sides as shown by yellow dots and make two ponytails in the crown. See B. Set all remaining hair under with hot rollers or use a curling iron for a tighter curl.

B. The green dots are the roller going back that will be used to cover the middle parting caused by the ponytails. For a side part some of this roller hair needs to go back and the front half can be parted.

Two ponytails allows for better balance when making the curls for the finished look.

C. This shot below is showing the tendrils in yellow, the top front roller in green and now you will see the ponytails have been curled with a hot curling iron shown in pink.

D. Once the rollers have cooled remove the top one, (green dots) and tease close to the scalp. This can be combed out smooth or left high, how ever you want it. Teasing helps control the hair and keeps this section from splitting exposing the middle part.

E. Bobby pin the teased section between the ponytails. Smooth the top gently. Spray.

F. Now begin taking sections of the hair that is at the crown and in the ponytails to make your curls. This one is shown brought forward (yellow dots), looped around and pinned in with the ends left free to show the curled tips. Leave some pieces loose to hang down the back.

Hair; the 'do dilemma

Whether you book with your stylist eight months ahead or assume there will be time to do your own hair with relatives staying over,.....etc. You need a plan for success!

Here are some suggestions:

Doing your own hair? Practice, practice, practice.

1. Time your practice session and make a list of all of the tools and products you will need.
2. Put everything in a basket and hide it away to bring out fresh and ready for your special day.
3. If there are relatives stay over, schedule times for showers
4. Make sure there is a mirror, counter, or table to work from.
5. Check for nearby outlets.
6. Put on your under things; cover up with a button down shirt or robe.

Is a stylist traveling to you?

1. Give exact, adequate directions and phone numbers.
2. Make sure you have a place set up for the stylist to work, like a well-lit dining room or kitchen table.
3. Don't assume the stylist can do extra people last minute. Make sure everyone who is having their hair done is mentioned ahead of time and arrives promptly.
4. Be ready yourself and allow extra time for interruptions.

Are you going to a salon?

1. Schedule your wedding day hair appointment at least eight weeks ahead.
2. Have a practice session at least a month ahead and bring a picture of your dress and your headpiece with you to the salon.
3. Record your travel time from the salon to where you are getting dressed.
4. Add on extra time for getting dressed and make-up if the salon is not applying it.
5. Bring a Polaroid camera to your hair appointment and take pictures of the front, side, and back.
6. Ask for more than one stylist to help with the wedding party. Three stylists for a party of six is the best bet for staying on schedule.
7. Schedule all nail appointments for the day before, this also saves time.
8. Don't expect to get your favorite stylist to do your wedding hair if you desire an intricate Updo. This is a specialty service and best left for the resident expert.
